

ColorConnex®

Color Code System For Standard Interchanges

Couplers & Plugs

ColorConnex® is a patented system that allows color-to-color matching of couplers and plugs among the standard pneumatic interchanges.

- Industrial (Type D): Red
- Automotive (Type C): Blue
- ARO (Type B): Green

By using ColorConnex to dedicate line use, you can ensure you never use a lubricated line for a dry line application, preventing cross contamination.

- **Match coupler and plug types**
- **Dedicate hose applications**
